

## **CS301 Team Charter**

Our purpose with this project is to add a tool to our toolkit by learning how to use Android Studio. It is also our purpose to design and implement an interactive GUI and work in a team project as it is done in the real industry.

Our choices are:

1. Canasta.
2. Craps.
3. Aggravations

We will be meeting on Mondays from 4 to 6 pm and in case it does not work for us in a specific week we will meet on Thursdays from 4 to 6 pm.

It will take us a maximum of 12 hours to respond any kind of text, email or any other communication that was done between the members of the project.

Participants:

- Ryan Hunter-Bliss.
- Sarah Ebner.
- Lute Lillo Portero
